CLPS Swings Into High Gear

Cape Lookout Sail & Power Squadron has lots going on!

We were the host squadron for the very successful District 27 Spring Council and Change of Watch on March 23 and 24. Many thanks to June Reasons and her committee who registered the participants, provided goodie bags, planned and ran breakfast and lunch events and special activities, acquired door prizes, ran the raffle for a Mike McCulley print of the Cape Lookout lighthouse, and provided the COW dinner decorations. The COW marked the culmination of Mike McCulley's term as the D/27 Commander. Thank you, Mike!

Our April membership meeting is on the 16th at the Flame. I have a number of awards to present, and Jenny Dark has arranged for an excellent speaker (see details elsewhere in this Outlook edition).

On Saturday, April 21, we kick off our 2012 Cruise Schedule with a day trip on the Trent River from New Bern to Pollocksville and back, with lunch at the Trent Restaurant in Pollocksville (famous for its country cooking). This trip is a New Bern tradition for many, and is a great way get out on the water and do a little exploring. It's about fourteen miles from Lawson Creek Park in New Bern to Pollocksville. Scenery along the way includes waterfront homes in New Bern, Trent Woods, and River Bend, spring greenery and flowers, lots of bald cypress, many twists and turns in the river, and maybe some wildlife. Croatan National Forest makes up the south bank of the Trent for most of the route, so there's minimal development on that side of the river. Although the Trent is surprisingly deep, there are spots where you can get into shallow water outside the channel, so this trip is best for shallow-draft boats. We'll meet at Lawson Creek Park at 10 am, have lunch in Pollocksville around noon, and be back by mid-afternoon. I'm the cruise captain, so please call me, or send an email, if you plan to participate.

We have activities in early May that you need to get on your calendar now. Check Jim Scheer's report for dates and times of our seminar series being presented at the New Bern Yacht Club (but open to anyone). New sessions of Seamanship and Piloting also kick off in early May.

The Blessing of the Fleet takes place at Galley Stores Marina/ Persimmons Restaurant in New Bern on Saturday, May 12. Bring your boat or come for the ceremony followed by an excellent lunch at Persimmons.

I encourage all our members to take advantage of the wide variety of activities available through CLSPS.

**Education
Department**
Lt/C Jim Scheer, SN

We recently had two more students, Bob and Janet Blanchard, pass their Navigation exam. We also have 4 members who have passed the Seamanship exam. The Seamanship students all participated in an on-the-water class that Kurt Weinheimer conducted on his boat in Oriental. A 20 knot breeze made the docking quite interesting!

We now have a schedule of classes for early summer this year. We are repeating both Seamanship and Piloting, so that those who took one recently can now take the other. Also, there are some who could not fit the recent courses into their schedules. I will be contacting all individuals who are eligible for these courses. These are being done sequentially so that anyone who needs both courses can get them in before we schedule the next Advanced Piloting, which requires completion of Seamanship and Piloting.

The dates and times for the USPS courses as well as the seminars are subject to change, depending on the consensus of the students and instructors, once we get a list.

Seamanship and Piloting

Seamanship: Kurt Weinheimer @ Kurt's Home. June 26-July 24, 1900-2100

Piloting: Bud Ellis @ Bud's home or F. H. Act Bldg. May 3-June 21, 1300-1500

We are also offering eight (8) of the 2-hour seminars, as shown in the list below. We have coordinated with the New Bern Yacht Club (NBYC) and they have offered the use of their facility for the courses. They will have some of their membership attending. And, when this round is completed, there will be another round of different seminars. As with Piloting and Seamanship, there is some flexibility in the scheduling of these seminars, so this list is subject to some change.

As always, please contact Bob Boyack or myself if you wish to attend any of these classes, and also, please know that we might be able to adjust the schedule if a different time suites you better. Bob Boyack can be reached at (rboyack@embargmail.com, 252-633-5108, or I can be reached at jim.scheer@gtri.gatech.edu, 252-876-3733

Please mark your calendars for Monday, April 16th – 1700 hrs. (5:00pm) at The Flame (See page 9). Our next members' meeting will include our social hour, a delicious dinner created by Chef Smoke, a brief meeting and a presentation by Dick Ewan about his and Catherine's sailing experiences in the Caribbean. You won't want to miss this two week sailing adventure aboard the Star Clipper from St. Maarten through the windward Islands, stopping at numerous islands including St Vincent, Isla Margarita off of Venezuela and on through the Panama Canal. Come join the fun!

Wow! So here I am suddenly your new membership chairperson without much warning or preparation and faced with the daunting task of having to write my first monthly article. Well, I guess I can't fake it, so I might as well sit down and try to think of something really creative to say.

I am going to try over the next year to bring in as many new members as I can. But I will need your help – I can't do this alone! I would love to hear your suggestions as to how to attract new members and how to re-up old ones who are slow with their checkbooks. I will need volunteers to help at Neuse River Day, the Bridgeton Riverfest and other events as they come along. Just remember: an organization worth joining is worth supporting – not only with your dollars but with your energy as well.

I had the pleasure of turning over name tags and new member packs to John(Jake) & Bethanne Jacobson at the COW (Change Of Watch) dinner. But I am holding name tags that have not been picked up for ●Bob Birch and ●Gary Todd. I also have New Member Packets and name tags for: ●Hank Hale; ●Judy and Patrick O'Brien; ●Jill and Rudy Ficken; ●Blaine Kruger; ●Ursula and Karl Schweers; ●Rick Hudson; and ●Roger Brown. If you know these folks, won't you invite them to come with you to the next membership meeting at The Flame. I'm sure there is an announcement somewhere in this edition of Outlook

Sunshine Lady
Linda Tobacco, AP

The Sunshine Lady sent three cards out for the month of March.

A Sympathy card to Marshall Van Winkle, upon the death of his son in boating accident.

A Get Well card to Rhys Evans after his colon surgery.

A Get Well card to Diana Thompson, after her kidney stone surgery.

Cooperative Charting

This year we are scheduling a one-day co-op charting cruise on Saturday, June 9. We'll need members with power boats, preferably runabouts with shallow draft to get close to the places and aids to navigation we want to investigate.

If you don't have a boat, you can crew for someone else; we need at least 3 people on each vessel.

During a tour of NOAA facilities in Norfolk, VA, NOAA technicians told us they like to see corrections that note the accurate (GPS) location of anything on the chart that is marked PA, "Position Approximate."

There are many on our local chart, 11552, and we'll concentrate on getting GPS fixes for these items. There are pilings and other hazards to navigation marked PA, and we'll try to find them all.

The USPS web site has a lot of information about Cooperative Charting, including the reporting tool, CCWEB. There will also be a training session on the newest version of CCWEB at the District 27 Change of Watch, here in New Bern on March 25.

The cruise will be scheduled for some time in May. More details on the Co-op Charting cruise will be in the next Outlook.

Lloyd Moore, Co-Op Charting Chairman.

Vessel Safety Check Program Vessel Safety Team

The boating season is here and now is the time to get one of our Vessel Safety Examiners to visit your boat and perform a safety check. The team will examine sail, power, dinghy, paddle, canoe, kayak - if it floats we will check it out along with the necessary safety gear. New members of the team are Bill Gewain and Kurt Weinheimer who recently passed the exam and have performed their initial safety checks to become certified. There are 3 more members in the process of being certified so there are many folks just waiting for your call.

Please look at the list elsewhere in the Outlook and call one of us to come out (we do house calls as well as marina visits). At the conclusion of a satisfactory visit we will present you with a decal to place on your boat to show you have been checked out.

Safe boating is the only way.

PERSONS IN MY LIFE

P/C William J. Ash, SN,H

“Horatio, look here, I knew this fellow twenty years ago. He’s pictured as a 21 year-old mariner who would come into my life when he was in his 70’s. He used to attend the meetings at the Quogue Wildlife Refuge and would give an occasional lecture concerning his travels at sea. I’ve had you there as my guest. In fact, you met him just before I left the area for milder winters and warmer waters.”

“Yes, I do recall him. Handsome chap in the picture; when I saw him in the flesh he looked nothing like that with his white beard and hair. Time sure changes a person.”

“I’ve been blessed to make friends and acquaintances of persons who contributed to our understanding of nautical things. Horatio, you’ll say I’m dropping names and trying to make you think I’m important, but you’ve known me over the years. I have never had any reason to make anyone think that, but my life is full of meeting all sorts of great folks. It just happened that way.”

“P/C, what is it? Go ahead with your story; I have no reason to think you are a windbag. Go ahead!”

“Well, for instance, I ran into the chap pictured here in Ocean Navigator as I said before. He led voyages on small ships to coordinates all over the globe. I recall one of those ships hit some rough ice in the seas around Antarctica and sunk, without casualties. He may have been on that ship. I think he was.

“Another chap whom I met was Jacques Cousteau. He was in Kuwait to push for the cleansing of the Arabian (Persian) Gulf. He was a great citizen of the planet. You know of him, don’t you?”

“Yes, and I remember the story you told about him and his presentation in Kuwait. It was jolly good.”

“Moreover, there was John Gardner about whom we spoke just recently. He was the master wooden boat designer and builder. Working with him in the Mystic Seaport boat shop was a thrill never forgotten. The fragrance of the wood shavings on the floor and firewood burning in the potbelly stove will always be with me.

“And who can forget the instructors I had during my years in USPS? They came from all walks of life and most, I can remember, were truly energetic and depended largely on their experiences on the water. A few were brought in because of their expertise in the laboratory. Engine Maintenance, for example, was taught by an engineering professor at a community college. The Weather Course was given by a professor of physics at the university. My Marine Electronics Course, which I called ‘The Mystery Hour,’ was difficult for me. I had trouble grabbing electrons. The engineering professor was terrific.

“I believe I took two courses with Cape Lookout, Instructor Development, which was a three-ring circus, and Navigation with P/R/C William E. Reasons, SN. All of the above persons made my life an interesting story. Oh yes, I should mention the books on Marlinspike Seamanship which guided me through some interesting projects. The authors had to be top-notch for me to have understood which way the strands go.”

“P/C, you should write about all this stuff!”

“I’ve tried, Horatio, but I find that very few persons actually read what I write. I suspect the word might be out that I’m too controversial.”

Cruising with the CLSPS in 2012

The cruising committee (Lloyd Moore & Jake Jacobson) is putting together an exciting schedule of cruises for 2012. We hope to have something that will appeal to all our boaters, no matter what type of boat you have.

If you'd like to participate in any of these cruises, please contact Jake (633-1033 or jjacobson@washjeff.edu) or Lloyd (637-5547 or Lloyd.Moore@suddenlink.net) so we can determine how many to expect.

Date(s)	Destination	Boat types	Notes	Cruise Leader
April 21	Trent R. to Pollocksville	Power (or sailboats with masts <45' and shallow draft)	New spring growth in the wetlands along the Trent, lunch in Pollocksville	Jim Starr
May 12	Paddling cruise; location TBD	Kayaks, canoes	If wanted, we could make kayak rentals & instruction available	Jake Jacobson
May 29-June 3	Ocracoke	Sail or Power	Ocracoke Festival. Festival is June 1-3; get there early to get spot at the National Park docks, or arrive later and anchor in Silver Lake.	Lloyd Moore
June 16	Manteo/Albemarle/Alligator River/Dowry Cr.	Sail or Power	8+ days total. Join/leave cruise anytime.	Andy Johnson (tentative)
June 19	Cape Lookout Shallow Water Cruise	Shallow draft power	Take the inside route from Beaufort for a day trip to Cape Lookout.	Karl Lichty
July 4	New Bern	Sail or Power	Raft up for fireworks off Union Point.	TBD
August or Sept	Cape Lookout	Sail or Power	Miles of beaches and turquoise water. Lighthouse is open for climbing Wed-Sat.	TBD
October	South River	Sail or Power	Explore South River, a great place for an overnight cruise.	TBD
December 8	Oriental	Boats or Land Yachts	Woolly Bear Cruise. A cruise, the Oriental Christmas parade, a party, and a dinner.	TBD

If there's interest, we will also plan a "gunkholers" cruise of local waters, anchoring in places you may have missed, like West Bay, Bay River, Vandemere, Campbell Creek (just north of Hobucken), and Slade Creek (off the Pungo River).

Mark your calendars now!

Sail the Leeward Caribbean Islands

Richard Tobacco

Linda and I had such a great time on our trip to Saint Maarten, that we are planning a return trip next January and we would like you to join us! We are booking a 7-night sailing adventure aboard the Star Clipper leaving from and returning to St. Maarten. We will be going leeward to islands less crowded than the northern Virgin Islands. A one-page flyer about this adventure is included in this issue (Page 13). And Dick Ewan will speak about his 14-night trip from St. Maarten to Balboa, Panama at the upcoming April dinner-meeting.

While in St. Maarten we had the privilege of having lunch aboard, and getting a guided tour of the 'Star Clipper'. Having done several 'big ship' cruises that had thousands of passengers and assigned dinner seating, we are looking forward to the smaller size and informality of the clipper. We believe this will be a unique opportunity to get to better know our fellow USPS members. We have secured outstanding rates for the cruise and travel insurance. We will be booking hotels for the day(s) before and after the cruise and we are checking for the lowest airline fares.

As your cruise captains we would like to have 10-12 couples join us. Currently two couples have said they definitely will be joining us and four other couples are 'very interested'. As CLSPS members you are being invited before this opportunity is extended to other squadrons. I encourage you to visit <http://www.starclippers.com/leeward-islands.html> to read descriptions of the islands to be visited. Sign up now as this offer will be extended to other squadrons mid-May.

Blessing of the Fleet

Blessing of the Fleet this year will be expanded over previous years and promises to be quite meaningful and enjoyable. Please mark your calendar for May 12, 2012 at 1100 at Persimmons Restaurant and Galley Marina. We have invited all the boating community of the New Bern area to share in the Blessing of the Fleet ceremony and to join us for lunch and camaraderie. We feel this is a great way to start the boating season and look forward to seeing you at this event. Please check our web site www.clsps.org for details. We will update the site when information is available.

If you would care to help with this event please contact P/C Richard B. Ewan, AP, ebr813@suddenlink.net or 635 9933.

Schedule of Activities: As mariners have done for centuries, your boat can be blessed for a safe voyage. The ceremony starts promptly at 11am and finishes by placing a wreath on the water with the traditional blessing of the fleet for all boats participating. Dinner follows ceremony. The Blessing of the Fleet narration is scheduled to observe the traditions of many cultures.

District 27 Change of Watch

From our new District 27 Commander

June and Bill,

We cannot begin to thank you two and your squadron mates enough for the fantastic job you did for District 27 this past weekend.

I know these things are never the piece-of-cake they appear to be and require an extreme amount of work and worry. You two and Diana Thompson and Jane Moore and Sherrie Starr and countless other members, I am sure, of Cape Lookout made it all look easy for the attendees.

Thank you for all you have done, and continue to do, for Cape Lookout Sail & Power Squadron, District 27 and United States Power Squadrons.

Most sincerely,

Harold
